# AIPPL

MAGNETIZE YOUR LIFE

## INTRODUCTION

AIPPL is a professional organization engaged in the production, sale and marketing of flexible magnets and related products. The main members of our company have more than 20 years of experience in the field of flexible magnets.

Our product line includes flexible magnetic materials, magnetic printing and display materials, and magnetic finished products. Our products are widely used in a variety of industries including promotion, advertising, gifts and giftware, commercial exhibitions, exhibitions and home decoration, offices and stationary, hobbies and crafts, children's education, etc.

Our product has passed various types of quality certificates, and the quality of our products is appreciated by customers all over the world. We not only supply flexible magnetic product, but also provide product solutions based on your application and requirements. Our aim is to provide the most suitable Flexible Magnet solution with good price / quality ratio to customers all over India and become your best Flexible Magnet and related products partner.

**Manufacturer of Flexible Magnetic Material, Custom printed Magnet, Magnetic Receptive Material and Related Magnetic Product**

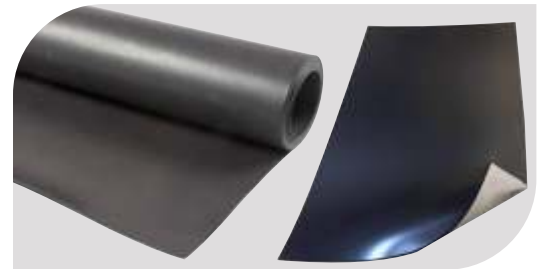

Flexible magnetic material is made of high quality ferrite magnet powder and thermoplastics. This product is lead free when using strontium ferrite. Free from heavy metals and hazardous chemicals.

This type of magnet has the best flexibility characteristics of any permanent magnetic material. It can be easily folded and twisted without damaging the magnetic properties of the magnet. It also has excellent machinability and is easy to drill, punch, shear, knife and die cut.

Standard Flexible Magnet is available in brown, self-adhesive or PVC, and can also be custom made according to your requirements.

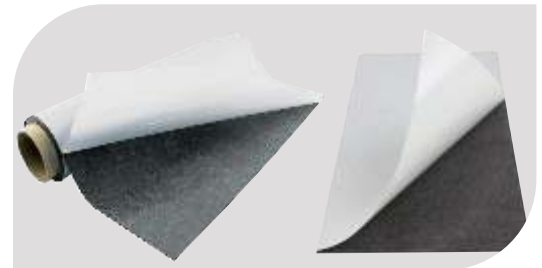

## Plain Black Flexible Magnet

Plain Black Flexible Magnet is without any laminations on both sides, one side is multi poles magnetized with matt or gloss UV protection coating, the other side is un-magnetized.,un-coated,You can laminate self adhesive, paper or PVC on the non magnetized side.

## Flexible Magnet with Adhesive

We produce Flexible Magnet laminated with all kinds of self adhesive, indoor or outdoor, rubber-based or acrylic based adhesive, Indian adhesive or imported high quality adhesive are all available. Self adhesive is laminated on the non-magnetic side of the flexible magnetic sheet, magnetized side is with UV coating, you can easily laminated paper, card or any printing material to the flexible magnet sheet after peeling off the liner paper

## Flexible Magnet with Printable Surfaces

We produce Flexible Magnet laminated with all kinds of printable surfaces to meet all kinds of inks or printing technology requirements. Printing media is laminated on the non-magnetic side of the Flexible Magnetic Sheet.

The most popular one is with PVC, no matter for Matt Vinyl, Gloss Vinyl or Colorful Vinyl, Screen printing or Digital printing, we have various kind of Vinyl to suit your application. Seven standard colors for your choice: White, Red, Orange, Yellow, Green, Blue and Black.

We can also produce Flexible Magnet with photo paper, art paper, synthetic paper, PET or PP. Just check with us if you need a special printing surface, we will have solution for you.

## Extrusion Magnetic Strips

Extrusion Magnetic Strip is made by high quality ferrite powder and synthetic rubber or plastic, which is available in standard energy or high energy, both provide superior holding power. Magnetic strip is available in plain finishing or laminated with different kinds of self adhesive

Our Extrusion magnetic strip can be custom magnetized to suit your needs including single -pole, multipoles, self-matching poles and other custom magnetization with superior holding power.

## Extrusion Magnetic Profile

We can also extrude magnetic profile. We offer standard profiles such as "C" profiles in various widths for labeling, "T" profile for shower doors and similar applications. Pen clips / pencil clips/multi-clips for attaching and holding pens and pencils to magnetic receptive surfaces, and buttons.

We have hundreds of existing dies or we can custom make one to meet your specific profile requirements.

## Ferrous Printing Media

### Product Description

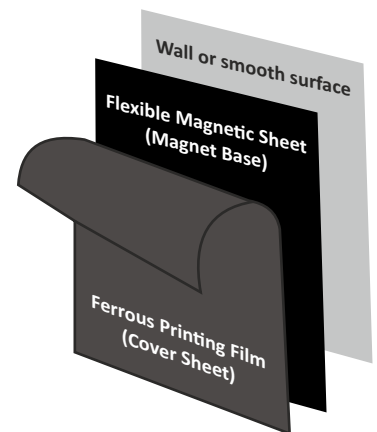

Ferrous Printing Film is a kind of special printing media coated with a layer of thin ferrous coating on the reverse side of a kind of versatile printing media by high technology. It is flexible and can be easily cut by knife.

### How To Use

Ferrous Printing Film is designed for use as a printing substrate for most inkjet digital printers. This product is available in different surfaces including PP, PET, PVC and Canvas, no matter for Solvent, Eco-solvent , water-based, UV or latex ink , there is a suitable material for you. It can be direct printed just the same way as normal PVC or similar printing substrate.

### About Magnetic Graphic System

Magnetic Graphic System consists of Flexible Magnetic Sheet as Magnet Base and Ferrous Printing Film as cover sheet. Once the Magnet Base be installed, it can be used for 3 - 5 years, what you need to do is just to change the cover sheet for new advertising or display purpose. The cover sheet is very easy to be changed by anyone without special know-how of installation. You can change one graphic very easily within one second, and it is also very convenient for transportation. Comparing with traditional PVC graphic which applied to the wall by adhesive. Magnetic Graphic System can save you a lots of installation time, labor cost and transportation cost. It is a real revolution for the sign industry.

## Standard Popular Size

Product	Surface	Length (mm)	Width (mm)	Magnet Thickness	Remarks
Sheet	<ul style="list-style-type: none"> <li>• Plain brown. Matt or Gloss UV coating on magnetized side.</li> <li>• with self adhesive. Matt or Gloss UV on magnetize side.</li> <li>• With white or color PVC Matt or Gloss UV Coating on the Magnetized Side.</li> </ul>	450 mm	450 mm	0.5mm to 3mm	<ul style="list-style-type: none"> <li>• Thickness is from 0.5mm - 3mm.</li> <li>• Width is from 10mm to 600mm.</li> <li>• Custom size are also available.</li> </ul>
Roll	<ul style="list-style-type: none"> <li>• Plain brown. Matt or Gloss UV coating on magnetized side.</li> <li>• with self adhesive. Matt or Gloss UV on magnetize side.</li> <li>• With white or color PVC Matt or Gloss UV Coating on the Magnetized Side.</li> </ul>	20 mtr	600 mm	0.5mm to 3mm	<ul style="list-style-type: none"> <li>• Thickness is from 0.5mm - 3mm.</li> <li>• Width is from 10mm to 600mm.</li> <li>• Length can be more than 30meter, depend on your requirement.</li> </ul>

## Uses of Flexible Magnet

- Flat Fridge Magnet
- EVA Magnet
- Cardboard Magnet
- Magnetic Car Sign
- Magnetic White Board
- Magnetic Dress-up Magnet
- Magnetic Calender
- Magnetic Photo Frame
- Magnetic Memo Pad
- Magnetic Puzzle
- Magnetic Game
- Magnetic Gift/Souvenir
- Magnetic Bookmark
- Magnetic Photo Frame
- Magnetic White Board Eraser
- Magnetic Paper Holder
- Magnetic Marker Pen
- Magnetic Badge Holder
- Magnetic Letters
- Magnetic Numbers
- Magnetic Symbols
- Magnetic PVC File
- Magnetic PVC Pocket
- Magnetic Button
- Dry Erasable Magnetic Labels
- Magnetic Hook
- Magnetic Clip
- Magnetic Rule
- Business Card Magnet
- Extrusion Magnetic Strips
- Magnetic Labels
- A4 Size Magnet

It's **uses** are **unlimited**  
only by **your** **Imagination**

Magnetic Calendar
